

**Position:** Quantity Surveyor

**Reporting to:** CCI Senior Management Team

**Location:** Horsham, West Sussex – Potential for short UK and international site visits on project specific basis.

**Experience/Role:**

- Independent assessment and review of costs relating to building and civil engineering projects, from the initial calculations to the final figures.
- An understanding of commercial aspects of main contractor and supply chain accounts, certification, VO's and final account preparation.
- Provide cost / value reconciliations to support delay analysis for claims quantum assessment.
- Review of the claim cost documents, contract documents, invoices, dayworks, etc., to accurately establish the correct level of reinstatement costs.
- Independent account of indemnifiable acceleration, disruption and time-related costs.
- Cost monitoring, including site visits and provision of cost control and management advice on live projects.
- Review of reporting compliance with contract and administrative systems and procedures.
- Experience of preparing clear, concise, high quality reports relating to claims and cost issues.
- Liaison with clients and key project stakeholders.
- In addition, you will have good experience of dealing with a range of construction contracts and claims assessment.
- Opportunities to work on a wide variety of interesting UK and international projects, including major infrastructure projects.
- Career development within a small dynamic consultancy with plans to expand this unique business.
- Competitive salary package dependent on experience.
- We encourage professional development.
