

Position **Senior Delay Analyst / Forensic Planner**

Reporting to CCI Senior Management Team

Location London
Potential for short UK and international site visits on project specific basis.

Job Description

Capital Consulting International (CCI) is a specialist practice providing claims consultancy consisting of timeline delay analysis, project monitoring, quantum support and litigation support to the international insurance and reinsurance markets.

We are leaders in our area, valued for our expertise regarding Construction and Engineering type policies and known for our ability to pioneer solutions that address the complex timeline issues that impact upon our clients.

Our London office is looking to recruit experienced project planners / delay analysts from an Oil and Gas / Petrochemical / Power background to work as part of the growing delay team. The appointed candidate will be from a live project planning background looking to make or having already made the transition into delay analysis.

Main duties shall include but not be limited to:-

- Critiquing claims including drafting and conducting critical path delay analysis
- Fact-finding, detailed analysis and quantification of delay and damages.
- Working with the CCI team and determining events for claim issues.
- Demonstration of delay occurring as a result of disruption/loss of efficiency.
- Programme critiques and delay analysis critiques.
- Preparation of fragnets and delay events chronology.
- Presenting analysis findings to clients and project stakeholders

The Successful Candidate should have the following attributes:

- UK or EU National or hold an ILR visa
- Construction or Engineering degree qualified
- A minimum of 10 years construction industry experience as a construction planner or construction related engineer having developed and maintained construction programs
- Programme management experience on major projects within the power, oil & gas, petrochemical or other process plant industries.
- Demonstrable knowledge of Primavera P3 and P6, Asta PowerProject & Microsoft Project

- Possess solid understanding of various delay analysis methods, the assumptions behind each, advantages & disadvantages of each, and the suitability of each method for a given circumstance.
- Delay analysis and report writing skills including hands-on experience of various prospective and retrospective delay analysis methods.
- Experience in project planning and controls.
- Excellent written and verbal communication skills.
- Excellent data management abilities.
- Constructive team member, contributing practically to the success of the team.
- Working under pressure and with minimum supervision.
- Analytical and goal oriented.
- Critical and creative thinking and ability to determine key issues
- Although not essential those that have experience of assisting an Expert Witness and drafting reports will possess an advantage.

In return we offer an excellent remuneration package that includes a competitive basic salary, performance related bonus, Private Healthcare, Pension Scheme, and 25 working days annual leave plus public holidays.

If you require more information on the above position prior to applying, please contact Steve Horne, for an informal, strictly confidential discussion initially by E-mail at steveh@ccint.co.uk
